In 2057, our life was turned upside down...

For a better understanding we are going to come back in 2056.

We are the 2 April 2056 and the election presidential are going to beginning in 2 weeks later. Many people stand for this election but one woman looks particularly a good candidate. Sincerely, I'm going to be married so I'm not really interested. The programme of Pauline, the candidate how looks interesting, is not bad according to my future husband, Matthis.

1 month later, Pauline was elected. Her speech changes a little now she is the president. Now, she wants to separate the men and the women and she want to kill the new born! It is appalling! She wants to abolish the overpopulation which affects our island.

Without knowing it we elected the devil. Pauline is president for 6 weeks and she has built a wall, a big wall to separate men and women. The wall is enormous, it looks hard and sad. It looks at us with superiority. It is like Pauline. I ask myself why? Why did Pauline make that? Why does she want to ruin our life? Why does she hate baby and love? Matthis is on the other side of the wall. I have much nausea so I made a pregnancy test and it was positive. I don't have the time to tell Matthis the news. I am pregnant. I'm scared for my baby but since it's my first child my belly is not showing fortunately. Matthis doesn't know he's going to be a dad. Now I live in a little flat with my best friend Aby. Aby is 22 years old like me we knowing since the elementary school. We played rugby together until go to university. When we are young, I cut the brown hair of Aby and she cut my blond hair. Our parents punished us 1 month. We worked in the police before the election of Pauline. Now we work as repairwomen for robots. Aby has 2 dogs Mollie and Ollie. She is kind and very friendly but she has a big character despite her little body. She looks innocent when you first see her but when we know her, we see his strong character. She listens you when you have problems.

Her lips are very luscious and her brown eyes with task of green are hypnosis. Since I'm pregnant I love look flowers.

Aby come at side of me and say:

"Do you know how you want to name the baby?"

I sigh slowly.

"My baby is not going to live Aby you know the rules..."

Aby looks at me like she saw a monster

"You, Ella you're going to give up?! Are you crazy? I remember an Ella strong and fight to have what she wants, where is she?"

I laugh. It is that strong character I talk to you.

"You are right. Thank you."

I say that but I don't know what I can do.

The 4 June it's my birthday and I have found a letter below my door. It was Matthis! He succeeded to past a letter to my side but is he still alive? It's forbidden to communicate with the other side. I am afraid for him. That thought lose my mind when I remember that I have a letter to read. In his letter, he told me that:

"My dear Ella,

I am terrified. Now it's done 7 weeks that we are separated and I don't know if you are alive. I live with your brother and the mine. They are in good health don't care. When you have read this text, burn it cause if someone see them, we are dead twice.

Don't answer me is too dangerous but you should know that I love you and I'm going to fight to see you again. You're not going to get rid of me like that.

Oh, and happy birthday, love you. Kiss on your scar.

Matthis"

When I finish reading, the tear falls on their own. The paper is humid. The story of my scar is when I was young, one day, I was in the garden of my parent and it snow. I play with my brother and the dog. The dog rush at us and I fall in a rock. I

scream very loudly and my parent arrive. It's like that I have a big scar on my cheek. I don't know why but Matthis love this scar and now I am not longer complex about this one.

Aby is in the kitchen to prepare my birthday cake and I can't tell her for the letter.

In July, my belly rounded so I wear sweaters but in July, some people see me strangely. I tell to Aby my concerns. We decide to elaborate a plan to bring down the government which by the way is made up of robots.

"Aby, the robots scan me and they have many doubts of my lie. The story of my disease won't walk for a long time."

"Ella, I know. Tomorrow we going to collect women who are of the same opinion as us regarding the government. Don't care."

In 2 weeks, we arrived to make a band of resistant composed to 16 persons. We live in front of the wall with Aby and we dig it. It make a long time and it's tiring.

We are in the middle of August and we arrived to make a passage between the men world and ours! The passage arrived in the house and I recognize the flag! It's the flag of my brother!
